Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

- This action is responsive to the following communication: RCE filed on 4/25/05.
- Claims 1-5, 7-20, 22-35, 37-50, 52-60 are pending in application; claims 6, 21, 36, and 51 have been canceled.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-5, 7, 16-20, 22, 31-35, 37, 46-50, and 52 are drawn to a print server for managing print job sent from information processing apparatus and to determine whether or not to reprint the resend print job based upon determination means (determining whether attributes are different based on a printer driver name for an output destination for reprint and a printer driver name for the reservation job data managed by reservation means), classified in class 358, subclass 1.15.

Group II. Claims 8-15, 23-30, 38-45, and 53-60 are drawn to an information processing apparatus for generating print data and send to the print server, classified in class 358, subclass 1.1.

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the subcombination has separate utility, for example, invention I is drawn to a print server for managing print job sent from information processing apparatus and to determine whether or not to reprint the resend print job based upon determination means (determining whether attributes are different based on a printer driver name for an output destination for reprint and a printer driver name for the reservation job data managed by reservation means), and wherein invention II drawn to an information processing apparatus for generating print data and send to the print server.

Art Unit: 2624

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Edward Kmett on 7/14/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thierry L. Pham whose telephone number is (571) 272-7439. The examiner can normally be reached on M-F (9:30 AM - 6:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David K. Moore can be reached on (571)272-7437. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
